

Drawing conclusions is reading between the lines.

Drawing conclusions is important because...

Authors don't tell me everything I need to know.

Drawing Conclusions

I draw conclusions when I...

Need to know more!

When I draw a conclusion, I...

- Think about what I **already know** about the topic.
- Think about **what the author has told me**.
- **Combine** them.  
- Keep reading -- to **confirm** or **re-conclude**.
